

United States Information Service
American Embassy Brussels, Belgium
News Bulletin
January 1948 through December 1952

This primary source collection, consisting of 30 boxes, was donated to the Roosevelt Study Center in September 2013 by the University Library of Ghent University, Belgium. The inventory was made in 2014. This 350-page inventory gives a detailed description of the topics, persons, and organizations mentioned in the *News Bulletin*. The issues of the *News Bulletin* cover the period January 1948 through December 1952 and offer an interesting view on U.S. domestic and foreign key issues as seen by the United States Information Service in the early years of the Cold War and as presented by this U.S. government organization to the public in Belgium. The description in this guide is chronologically per day/month/year.

In addition to the *News Bulletin*, this collection from the American Embassy in Brussels also includes two smaller uncatalogued collections in the French and Dutch language, respectively:
Nouvelles des Etats-Unis, January 1949 through May 1966;
Arts et Lettres, January 1952 through January 1961;
La Semaine du Travail, November 1955 through July 1957.

Nieuws uit de Verenigde Staten, March 1956 through December 1966;
Kunst en Letteren, November 1952 through June 1962;
Week van de Arbeid, November 1955 through July 1957.
