

SUPPORT PUERTO RICAN SOLIDARITY DAY!

On October 27, more than 20,000 people will fill Madison Square Garden in New York city to over-flowing. Their purpose will be to demand INDEPENDENCE FOR PUERTO RICO - an end to the colonial domination of the island by the United States imperialists.

October 27, designated as Puerto Rican Solidarity Day, is only the latest action in the 76 year struggle to free Puerto Rico. The struggle has claimed many martyrs, such as the nationalist leader Pedro Albizu Campos, and many liberation fighters are still in U.S. jails, such as the people's hero Lolita Lebron, one of the longest held political prisoners in the entire Western Hemisphere.

The October League believes that it is the duty of all progressive people in the United States to support the demand to FREE PUERTO RICO! We call on you to do what every you can to make Puerto Rican Solidarity Day a big success. We ask you to join with us in Madison Square Garden on October 27. As one of the oldest colonial possessions of the U.S. imperialists, as the colony closest to our shores, we believe that, as it said in our newspaper THE CALL, "The liberation of this country must be a number one priority for the working class movement in the U.S. The oppression of Puerto Rico is used by the forces of reaction in order to weaken the revolutionary struggle here and turn worker against worker."

THE NATION THAT OPPRESSES ANOTHER NATION FORGES IT OWN CHAINS - Karl Marx
